HELLO!

PRC is a leader in Stick packaging and Single serving packages among many other packaging options. We offer many different sizes and styles of Stick packs and will work individually with each customer and product to find out the best fit.

At PRC we believe that the first part of business is taking care of our customers needs.

Your business and your products are very important to us and we will strive to meet all of your expectations in making your product successful.

Take a closer look at our production capabilities and see why we could be the perfect fit for your business.

Stick Packaging

One of our specialties, we can provide stick pack packaging as well as kit assembly. PRC is unique in its ability to work with our customers in the development of stick packs that can individually contain up to 200g of powder or 30ml of liquid.

► Powders & Granulars

From small jars to large jars, we are able to package your unique powder or granular fill.

► Supplement Packs

PRC can produce different supplement packs, from fitness packs to nutritionals.

► Personal Care Samples

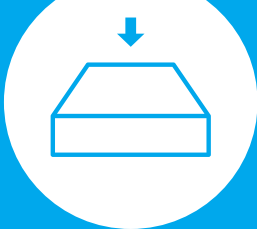

PRC has the ability to deliver single-serve samples like toothpastes, small lotion bottles and more.

► Lotion & Creams

We can fill lotion and cream bottles, pumps and other options for liquid type products.

Kit Assembly

We have on-site kit assembly with a personal touch to fill your product quickly and efficiently. PRC's kitting department assembles products into their final stage for retail business or internet sales. From retail displays to bags and cartons, we provide you a product that fits your needs. PRC develops custom-made packaging that can feature side or back seals, tear notches, or pour spouts. We have a wide range of equipment, including auger driven and volumetric cup dosing machines. To create the best look for your product, we have many sizes of forming collars to choose from. We have the additional ability to package pill packet sachets and powder filling in canisters or gusseted bags.

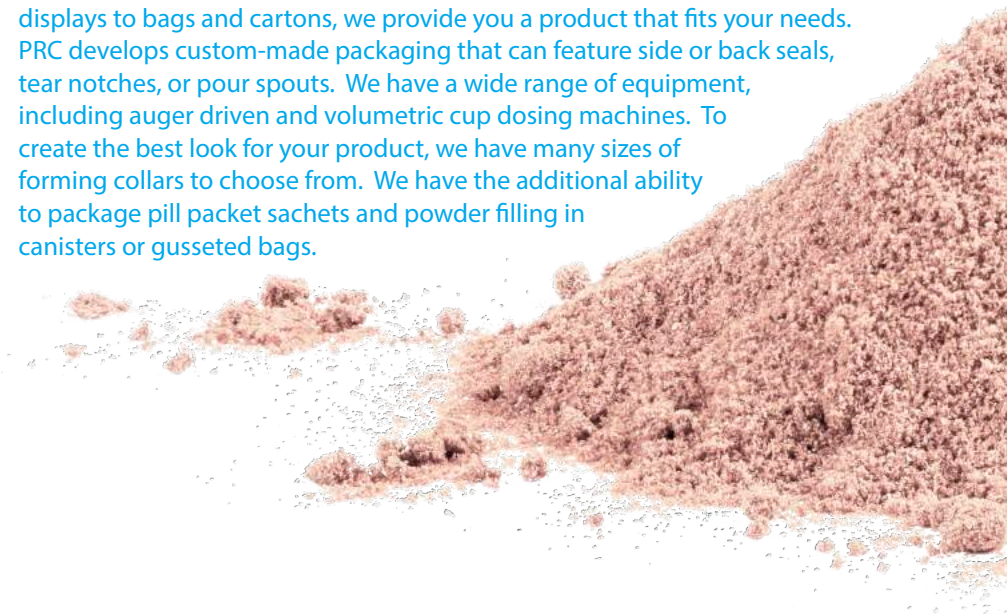

Dry Mixing & Blending

With the experience of our strategic formulation partner and 3rd party lab testing we offer turn key solutions from formulation to blending to final packaged product. We have on-site kit assembly with a personal touch to fill your product quickly and efficiently. PRC's kitting department assembles products into their final stage for retail business or internet sales. From retail displays to bags and cartons, we provide you a product that fits your needs. We have the additional ability to package pill packet sachets and powder filling in canisters or gusseted bags.

Oils & Extracts

Packaging solutions for oils or extracts with our different filling equipment options. PRC can create a number of different packaging solutions for oils or extracts with our different filling equipment options. PRC is distinguished in the State of Utah in its certification for processing CBD oil and dehydrating the CBD oil to a powder form. We work with customers on formulas and products to support health and wellness.

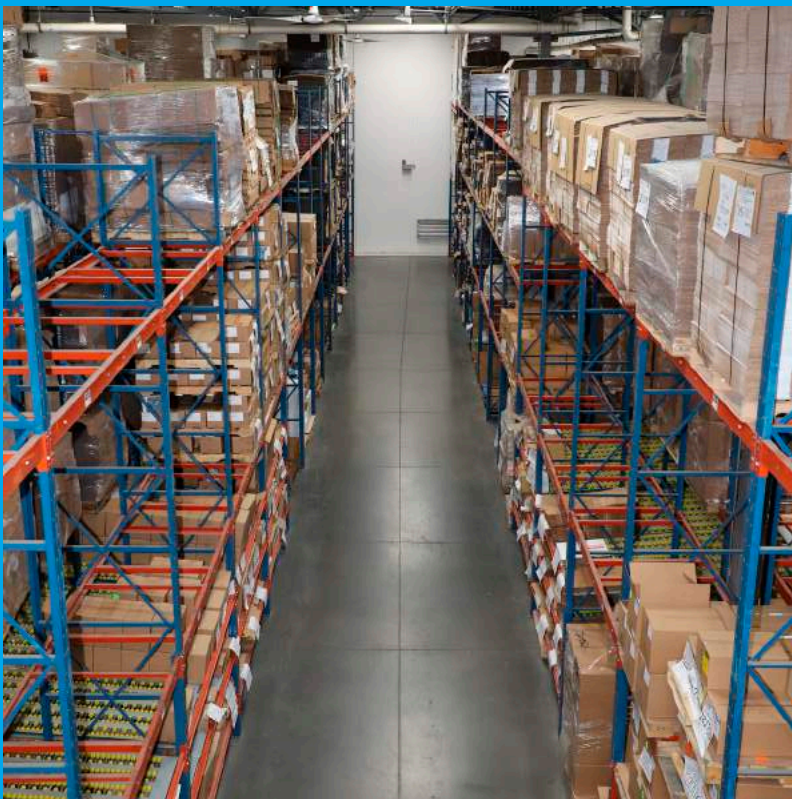

Sourcing & Shipping

We source boxes, labels, products, or any other needs your project has from start to completion. We ship directly from our facility and offer design resources for packaging and FDA compliance.

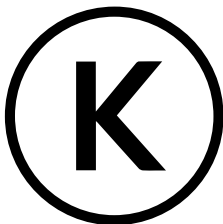

Accreditation's and Compliance

Quality and reputation go beyond our best assurances. PRC maintains the highest standards in the industry. We are certified with NSF for GMP's, Organic certified with CCOF, Kosher compliant and a registered FDA facility.

Commitment of Management

PRC Inc. is a leading contract packager of retail food, nutritional supplements and cosmetic products. The products we contract with are destined to national as well as international markets and are recognized for their quality standards. The senior management at PRC Inc. recognizes the importance of their role in ensuring the food safety and quality of the products under our care. Therefore, the senior management at PRC Inc. is thoroughly committed to providing our customers with safe and quality products by financially supporting and guiding the development, implementation and maintenance efforts of the corporation in food safety, quality and continuous improvement of all products produced.

PRC Inc. employs the highest industry standard methods to accomplish this commitment to consistently manufacturer products that are safe. The facility operates under FDA regulations for current Good Manufacturing Practices. We are third party audited by NSF for Food and Dietary Supplements. Under these rigorous standards, PRC Inc. maintains many pre-requisite food safety programs such as Pest Control, Allergen Control, Sanitation Procedures, Employee Training, Product Traceability and Product Recall.

Additionally, supporting quality programs are in place to ensure all products are manufactured to meet pre-established specification parameters outlined by our quality team and specific client requirements. These including sensory evaluation, product weight inspections, and analysis of physical, chemical and microbiological variables.

The employees of PRC Inc. are the company's most valuable asset, and are supported in every effort to ensure the achievement of our standards. The staff is involved in all aspects of production, continuous improvement and system review programs. The associates are properly trained and understand the organization's commitment to high quality standards and customer satisfaction.

PRC Inc. is committed to establish and review our food safety and quality objectives annually. This commitment is signed by the owners and posted to communicate our objectives to all staff.
